MARKET SCENARIO

Indian stocks have risen to new highs this fiscal year despite a series of developments perceived to be negative to the markets. From the UK's referendum to leave the European Union, Donald Trump's victory in the US presidential election, the US Federal Reserve's decision to hike interest rates and Prime Minister's demonetisation move, the year was action-packed, to say the least.

Despite global events impacting risk sentiments during the year, the positives of the domestic economy supported the market; which included a normal monsoon, moderating inflation and implementation of the seventh Pay Commission award, all of which are expected to boost consumption.

The watershed moment of the year came when the Prime Minister announced on November 8th, 2016 that on the stroke of midnight all 500 and 1,000 rupee notes - 86% of the currency in circulation - would cease to become legal tender. On the back of this news the NIFTY crashed almost 7% as market participants tried to decipher the possible effect such a move would have on a cash transaction reliant market such as India.

But the onset of calendar year 2017 have saw the Indian markets embark on a rally supported by India's economic growth potential, BJP's historic win in the Uttar Pradesh elections and a surge of liquidity funded by increase in SIPs which took the NIFTY to new highs in the last days of the fiscal year as it broke the 9000 barrier, gaining close to 16% from the post demonetization lows.

The domestic equity indices ended FY 2017 with good gains amid volatility in the frontline indices NIFTY gaining 19 per cent. The midcap index had a good year with 37 per cent gain. Cyclical sectors outperformed defensives during the year. Metals (62 per cent), Oil & Gas (38 per cent), Auto (22 per cent) and Bank (33 per cent) stocks were supported by a rally in global commodity prices and easing of the domestic money policy. Pharma (-5 per cent) and IT (3 per cent) were the under performers as they remained under pressure given the global scenario.

MARKET OUTLOOK

The momentum in the Indian markets will be carried into the next financial year as they are expected to perform better than they did in FY17. Even after demonetization, the Indian economy is expected to grow above 7.5% in the coming year as it will get a boost from the expectation of normal monsoon which would revive rural demand with increase in spending, ability which in turn will push earnings growth of FMCG, consumer durables, agri inputs, fertiliser and cement companies amongst others and give more room to the RBI to cut interest rates going forward. The implementation of GST and its impact on earnings due to stock adjustment and implementation hurdles for next one or two quarters have to be seen. In the long run GST overall is likely to increase GDP by 2% per annum.

The equity market is getting support from domestic fund flows through mutual funds which are flush with funds due to sharp rise in the number of SIPs and rising flows from National Pension Scheme and the Employee Provident Fund Organisation (EPFO). Domestic money flow outstripped foreign fund flows in a cumulative two-year cycle in FY16-17 for the first time in seven years while a broad-based comparison of

stock ownership suggests favourable tailwind for Indian funds and investors. The alternatives to equity investment like Gold have become too volatile and do not assure that value will grow consistently and with government cracking down on benami properties and real estate transaction, investors are getting weary of property market. FDs and Bonds yields are just about sufficient to cover the risk of inflation. Under such circumstances, only equity linked products remain as veritable investment options for wealth creation. This could be a key driver for Indian equities.

Opportunities and Threats

The Company being a player in the financial market, the performance of the Company largely depends on the National and Global Capital Markets. The High volatility in the market along with higher inflation has intensified the competition. Your Company continues to achieve cost effectiveness through the application of technology. We have been fashioning our own responses to these challenges and we believe that we can turn them into opportunities, which can unlock growth for us in the future.

Opportunities

- Growing Financial Services industry's share of wallet for disposable income.
- Regulatory reforms would aid greater participation by all the class of investors
- Leverage technology to enable best practices and process.

Threats

- Execution Risk
- Slowdown in global liquidity flows
- Intense competition from local and global players.
- Unfavourable economic conditions

Macro-economic and industry developments

The Stock Market has been revolutionized by adopting modern technology, as the exchanges are now able to reach out to the far flung centers of the country with an efficient trading network for the benefit of retail customers. The Capital Market is most efficient when it discounts all informations in pricing of traded equity stocks. The maturity of the Stock Market has made it increasingly less risky through built-in information system made available to the participants over and above supervisory oversight. The ongoing efforts for further broadening and deepening of the Stock Market domestically and aligning the market with global trading system is not only expanding the customer base but also attracting more resources for investments.

The Indian broking industry is one of the oldest trading industries that have been around even before the establishment of the BSE in 1875. Despite passing through a number of changes in the post liberalization period, the industry has found its way towards sustainable growth.

The financial markets have been classified as cash market, derivatives market, debt market and commodities market. The sustained growth of the economy in the past couple of years has resulted in offering many diversified services related to IPOs, mutual funds, Company research etc. However, the core trading activity is still the predominant form of business, forming 90% of the trading volume.

The fragmented nature of the industry, coupled with increasing competition from large players in the retail and institutional broking side is likely to exert pressure on broking houses, hence the ability to maintain market share, margins and consequently, return ratios stands as a big question mark. Moreover, declining market turnover due to dwindling retail and institutional investor participation, significant correction in stock prices, dismal investment banking outlook and a worsening macroeconomic scenario do not bode well for brokerage firms.

Challenges, Risk, Concern

The Company faces normal business challenges of market competition in its business and needs to continuously seek attractive growth opportunities. The Company adopts suitable business strategies to counter these challenges.

As a part of the overall risk management strategy, the Company consistently insures its assets and generally follows a conservative financial profile by following prudent business practices.

Segment Wise or Product Wise Performance

The Company carries on Stock Broking which is its core activity, besides undertaking other Capital Market activities. The segment wise performance of the Company is as under:

(Rs. in Lacs)

SEGMENT	GROSS INCOME	
	31.03.2017	31.03.2016
Securities Dealings & Broking	854.16	377.63

Registrar & Share Transfer Agent	36.86	41.97
Demat & Depository	11.14	11.39
Consultancy Fee	1.15	0.00

Internal Control System and their adequacy

The Company has a proper and adequate internal control system commensurate with its size and nature of business to meet the following objectives:-

Providing assurance regarding the effectiveness and efficiency of operations;

Efficient use and safeguarding of resources;

Compliance with policies, procedures and applicable laws and regulations; and

These systems are IT enabled which facilitate effective checks and tight monitoring of all parameters and control on continuous basis.

The Audit Committee actively reviews the adequacy and effectiveness of internal control systems and suggests improvements for strengthening them from time to time.

Risk assessment reports received from various departments are reviewed periodically and steps are initiated for elimination whenever needed.

Human Resource Development

The Company has a group of able and experienced employees. The Company believes that the quality of its employees is the key to its success in the long run. The Company continues to have cordial relations with its employees and provides personal development opportunities for all round exposure to them

**INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF CIL SECURITIES LIMITED**

Report on the Financial Statements

We have audited the accompanying financial statements of CIL Securities Limited (the Company), which comprises of the Balance sheet as at March 31, 2017, and the Statement of Profit and Loss and the Cash Flow statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting principles generally accepted in India, including the accounting standards specified under section 133 of the act, read with rule 7 of the companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the act for safeguarding the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgement and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the act and the rules made thereunder.

We conducted our audit in accordance with the standards on Auditing specified under section 143(10) of the act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

ANNEXURE A TO THE AUDITORS' REPORT**Report on the Internal Financial Controls under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of CIL Securities Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all Material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedure selected depends on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements whether due to fraud or error

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure 'B'**Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute.

21 Significant accounting policies**21.1 Basis of accounting and preparation of financial statements**

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards prescribed under Section 133 of the Companies Act, 2013 read with Paragraph 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013, to the extent applicable. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year .

21.2 Use of estimates

The preparation of the financial statements are in conformity with Indian GAAP which requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable.

21.3 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises of cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash are subject to insignificant risk of changes in value.

21.4 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

21.5 Depreciation and amortisation

Depreciation has been provided on the written down method as per the rates prescribed in Part 'C' of Schedule II of the Companies Act, 2013.

Intangible assets are amortised over their estimated useful life as follows:

Intangibles – 3 – 6 years.

The estimated useful life of the intangible assets and the amortisation period are reviewed at the end of each financial year and the amortisation method is revised to reflect the changed pattern.

21.6 Revenue recognitionIncome from services

Revenues from contracts priced on a time and material basis are recognised when services are rendered and related costs are incurred.

21.7 Other income

Interest income is accounted on accrual basis. Dividend income is accounted for on receipt basis.

21.8 Tangible Fixed Assets

Fixed assets, are carried at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date. Machinery spares which can be used only in connection with an item of fixed asset and whose use is expected to be irregular are capitalised and depreciated over the useful

life of the principal item of the relevant assets. Subsequent expenditure relating to fixed assets is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Fixed assets acquired in full or part exchange for another asset are recorded at the fair market value or the net book value of the asset given up, adjusted for any balancing cash consideration. Fair market value is determined either for the assets acquired or asset given up, whichever is more clearly evident. Fixed assets acquired in exchange for securities of the Company are recorded at the fair market value of the assets or the fair market value of the securities issued, whichever is more clearly evident.

The Company has not revalued its assets.

Fixed assets retired from active use and held for sale are stated at the lower of their net book value and net realisable value and are disclosed separately in the Balance Sheet.

21.9 Intangible assets

Intangible assets are carried at cost less accumulated amortisation and impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible asset after its purchase / completion is recognised as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.

21.10 Foreign currency transactions and translations

Transactions in foreign currencies are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

21.11 Investments

Long-term investments (excluding investment properties), are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

Investment properties are carried individually at cost less accumulated depreciation and impairment, if any. Investment properties are capitalised and depreciated (where applicable) in accordance with the policy stated for Tangible Fixed Assets. Impairment of investment property is determined in accordance with the policy stated for Impairment of Assets.

21.12 Employee benefits

Employee benefits include provident fund, superannuation fund, gratuity fund.

The Company's contribution to provident fund is considered as defined contribution plan and is charged as an expense as they fall due based on the amount of contribution required to be made.

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under :

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

21.13 Segment reporting

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

21.14. Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

21.15 Taxes on income

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax (MAT) is paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable

income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.

Current and deferred tax relating to items directly recognised in equity are recognised in equity and not in the Statement of Profit and Loss.

21.16 Impairment of assets

The carrying values of assets / cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

21.17 Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes.

21.18 Derivative contracts

The Company enters into derivative contracts in the nature of foreign currency swaps, currency options, forward contracts.

Futures derivative contracts are marked-to-market and Profit & Losses are recognised in the Statement of Profit and Loss. Option transaction are recognised at cost price till the account is settled.

21.19 Service tax input credit

Service tax input credit is accounted for in the books in the period in which the underlying services are received and are accounted as and when there is no uncertainty in availing / utilising the credits.
